

AML Risk: A

Research Report: exafunction inc

Exafunction, Inc. is a privately held company founded in 2021 and headquartered in San Francisco. It specializes in serverless infrastructure for deep learning, offering GPU virtualization to optimize resource utilization and improve performance. Its platform, ExaDeploy, enables scalable and efficient deployment of machine learning models, helping customers reduce costs and energy consumption. The company has raised significant funding, including a \$25 million Series A round led by Greenoaks, and aims to address challenges in deploying deep learning models at scale [1][4][7]. No negative news related to the specified keywords (e.g., arrest, fraud, money laundering, etc.) was found regarding Exafunction, Inc. in the search results. This indicates no reported involvement in activities that would raise AML concerns [1][4][7].
